

Granger's Footwear Repel: An easy-to-use spray on waterproofing treatment. Repels water and stains whilst maintaining breathability. Suitable for use on all types of footwear.

Granger's G-Wax Cream: very similar to Granger's G-Wax but in cream format rather than a paste. Slightly heavier product. Performance largely the same as G-Wax.

Granger's Paste Wax (Tube): Effectively the same as Granger's G-Wax cream, but in a handy squeezable tube!

Granger's G-Wax: Long standing, popular product. Blend of beeswax and synthetic waxes. Highly effective as a conditioner and waterproofer for leather footwear. Ideal for full-grain leather boots. Protects against water, oil, and stains.

Granger's Leather Conditioner: Originally formulated in conjunction with Gore for use on Gore-Tex lined leathers. Blend of synthetic waxes and water. Conditions and protects leather whilst having minimal impairment to footwear breathability.
